LOGNOTE -- Chief, Operations Group, 19 September 1985

1.  Following from this morning's staff meeting:

25X1

- The IG is hearing complaints from the staff that they're not being told what's going on in FBIS (where have we heard this before?). Division chiefs should hold frequent staff meetings to make sure the troops are informed of developments in the office.
- The Agency will end the fiscal year well under T/O. The word is hire, hire, hire! Don't worry about going over T/O.
- O/P claims that in November they will make a big push on clerical hiring.
- Latest space rumor is that O/L has recommended that FBIS find a building for itself, probably in the Vienna area.
- Further last week's note on the Mid-Career Course. The revamped course will run for four weeks, with a one-week domestic trip. Hooker is that there will be only four runnings per year.

25X1

- Guidance on the 1987 program will be forthcoming. There will be OMB hearings in October. Since the Agency allocation is not large enough to cover all program elements a new prioritization will be called for.
